**POSSIBLE ORGAN REPLACEMENT:** As mentioned at this year's Annual Parochial Church Meeting in April [and in the 2016 annual report], the PCC has been giving thought to the need for significant work on the existing organ. A report and quotation for overhaul and repair work was sought, also a report from a member of the Association of Independent Organ Advisers to include guidance on replacing the present organ with an instrument of recognised historic merit. The PCC has now decided to explore further the second option, guided by our organ adviser, and an instrument from 1856 has come to light which may be suitable. There have been positive noises from the Diocese. Further news to follow.
